

Henry's Grandson Steps Out Ahead Of Competitors

Henry II Selects New Management Group And Models

In the early nineties, Henry Ford got together an engine, some wheels, steel frame and some tin, with a sprinkling of brass and electrical wire and put the average American on his seat instead of his feet ready to travel. Henry successfully fought everything except model change, and practically no improvements until Edsel managed to bring out the Model A's. Between the two some 20 million vehicles were sold. Then came the V-8 and six, which added 12 million more customers, while competitors left them behind in sales.

Now Henry's grandson, Henry II, has forgotten Grandpa's old inventory and customs and gone "all-out" to make a modern streamlined motor vehicle which deserves the classification of automobile.

What is the Ford line of passenger automobiles for 1949 going to be? That is a question which the motor producing and buying world has been wondering and anticipating for several months past.

That question has been answered by The Ford Motor Company, the past two weeks, where exhibit displays have been held by the local dealers of "The Car of the Year."

Charles Bolton, of the Belle Glade Motor Company, who

Contract Given Phone Workers By Bell Company

The Communication Workers of America, Southern Division 48, and the Southern Bell Telephone and Telegraph Company announced Saturday the signing of a new contract covering wages and working conditions, according to C. F. Jackson, manager.

The contract, effective as of Saturday, is for an initial period of three years with provision for two reopenings for discussion of wages during its term.

Among other provisions of the new agreement are the following: 1. Job security for employees; 2. Improved Sunday and holiday pay treatment; 3. Increase in termination allowances; 4. Improved methods of handling promotions; 5. Revised arbitration procedures; 6. 20c per day for streetcar fare for divided work shifts; 7. Shortening of hours of schedules for certain operating room employees; 8. Improvement of working conditions and mutual exchanges. These agreements are subject to a referendum of membership of the Southern Division 48 of the Communication Workers of America.

The company spokesman, Bowen, said the wage reopening privileges were included in the new agreement "primarily because there is to be no increase in wages at this time."

Celery Picture Of Past Season Not A Wholesome One

The Glades being one of the main sources of supply for celery for the consuming bodies of the northern states, during the winter season, had a rather up and down experience in the past year. The 1947-48 season was one of low prices, the opposite to that of the previous year.

With more extensive plantings in the spring crop, with weather conditions and insect invasions, and plant diseases, and prices under production costs, many acres of celery were uncultivated and lost under a heavy loss.

California, Arizona and other states, thinking that south Florida would be less in the picture than in former years planted larger acreages, and this was a big item for supplies flowed into the local market, practically gutting them, without the Florida shipments. That brought on

Future Farmer Boys Buy Brahman Cattle

Prof. "Bob" Davidson, director of F. F. A., recently took a bunch of his boys, who are interested in cattle raising, over to Clewiston, where they visited the cattle range of the United States Sugar Corporation. They were shown over the barns and range, and was extended every courtesy.

Before leaving quite a deal in cattle was consummated, as the boys bought six pure bred Brahman heifers, two months old; one registered bull, three weeks old; and one registered bull, eleven months old. The boys making the purchases were: Kenneth Bass, Joe Stevens, Kenneth Harris, Nelson Nels. Four registered Brahman cows for use of the Belle Glade club, are to be delivered at a later date.

Bill Acre and James Langford were the local chapter's representatives at the State convention at Gainesville June 12-13. Billy Acre is also to attend the Forster Training School at Camp O'Lea from August 1 to 14.

National Flag Day Duly Honored By Elks And Legion

American Flag Day was duly observed in Belle Glade, Sunday afternoon, at the Legion Hall where the Elks and the American Legion and National Guard gathered for such observance.

Citizens of the city showed their love for the Flag by turning out in goodly number, for the really fine patriotic program which was presented, following the Elks' ritual set up for the occasion.

Seated on the platform were Exalted Rulers, Lou Betner and Ed Jensen, of the Elks Lodges; Commander Wm. Young of the Everglades Post of the American Legion; Eugene McMillen, Commander of the Belle Glade VFW; Emmett Roberts, R. V. Allison, Mrs. Mary Fox, presidents of the Lions, Rotary and Business and Professional Women's Clubs; Sandra Freeman, of the PTA; Hort Russell Mayrow, the speaker of the day, and Mrs. L. P. Parsons, presiding at the piano.

The presentation of the Flag of America, as given by Flannery Clyde Trammell, was not only full of beauty but also of historical information, and made the audience fill with patriotism. Nine flags were carried to the front by the Boy and Girl Scouts, and the Belle Glade Elks and Legion furnished the music of the hour.

The address of the afternoon was delivered by Hon. Russell McMillen, in encouraging the committee made up for him to have an excellent address, and made all feel a greater respect and love for Old Glory. These addresses were patriotic, and being spoken by a former high service man of the late war, it carried much weight and interest.

All present felt that it was an hour well spent in the commemoration of our national emblem.

Leonard Resigns School Superintendentcy

Dr. John L. Leonard, who has been the efficient superintendent of public instruction of Palm Beach county, for the past 12 years, forwarded his resignation to Governor Miller last week, as of July 1st in order that he might become the president of the Palm Beach Junior College.

Clades Negro Faces Court

Peter Whitfield, who was arrested by Constable Ray Whitlock, for the theft of a motor car at Clewiston, pleaded guilty in Criminal court, and was sentenced to one year in Reformatory. Willard Lee Cook, who was involved in a collision and property damage case, was fined \$150 but same was suspended if he paid the damage costs on the car he struck.

To Drill Oil Well

Permission has been granted the Humble Oil Company to drill the Hite Cypress Company well No. B-1 in Collier county, by the State Board of Conservation. The proposed depth is 11,500 feet.

Belle Glade Has 28 Graduates In Present Class

Diplomas Presented By Dr. Leonard To The Sixth School Group Of Seais

The crowning event for all high school students is that which is known as the Graduation or Commencement night, usually preceded by a week of school engagements and games.

To 28 young men and women of Belle Glade High, the date of June 11th, will always be an occasion for them to remember, as it was on that occasion that Dr. John L. Leonard, retiring county superintendent of public instruction, presented them with their diplomas, which is a mark of scholastic attainment and a pass port into the colleges of the state, should they seek higher educational advantages.

The County Board of Public Instruction, assisted by the faculty of the High School and by the interested personnel of the classes, prepared all arrangements for this event, and

South Bay Junior High Graduates Class Of 21 Boys And Girls

Graduating Exercises were conducted at the South Bay School on Monday, June 14 at 2:30 p. m.

Their class hymn was used as a procession followed by the invocation by the Rev. B. A. Oswald, pastor of the South Bay Baptist Church.

The program was presented by the class on a phase of their years work in English and Music. A study of folk tales and folk songs in class with some emphasis on American folk dancing such as the square dance and play-party games. Physical education was very cleverly brought out in the graduation program as the members of the class told a small part of the story of American Folk Songs, illustrated with a number of these songs. Mrs. J. Horton was accompanist. The script was written by Principal

Music School At South Bay

Mrs. Flora D. Willis of Longwood will give in South Bay Saturday to complete arrangements for opening a School of Music at the Baptist Church.

Classes for Juniors and Inter-mediate students will start at 8:30 each morning Monday through Friday for a period of two weeks.

Classes for adults will be conducted each evening at 8 o'clock. The public is invited.

Mrs. Willis who is sent out from the Department of Music at Churches of Belle Gladeville Baptist Church. She will conduct inspirational services daily in addition to the voice lessons.

Attend Sarasota Funeral

Mrs. Ovelyn Albritton, a sister of Mr. F. T. Ernest, the latter a former resident of Belle Glade, died at her home in Sarasota, Monday after a long illness.

Mr. and Mrs. William Connor, of Belle Glade, and Ben Ernest, of Miami, attended the funeral services there on Wednesday.

Attend State VFW Convention

The state convention of the VFW and its Auxiliaries was held in West Palm Beach the past week, with around 1500 in attendance. The convention in all respects was proclaimed

Five Girls And Four Boys From The Senior Class Were Selected To Receive Special School Awards

Outstanding students of the Senior Class who received awards along with their diplomas at the graduation exercises Friday night.

Top row, left to right—Anne Kirchman, Valedictorian and holds highest average for four years, general excellence in English and Home Economics; John Breger, Salutatorian, holds second highest average for four years, general excellence in Mathematics and Science; James Ball, Citizenship, best Senior boy, American Legion Award.

Second row—Helen Friedheim, Citizenship, best Senior girl, American Legion Award; Claude Johns, best all around Senior boy, general excellence in History and Band, D. A. R. medal; Nancy Crossen, best all around Senior girl.

Bottom row—J. T. Harrell, general excellence in Agriculture, best boy athlete; Grace Eggleston, general excellence in Commerce; Darlene Mobley, best girl athlete.

Local Churches To Conduct Bible Schools For Youth

Possibly the greatest textbook that juveniles and adults alike study more than any other is the Holy Bible. School children get little time in their regular school work for other than superficial Bible study or religious training, and what is picked up about the Bible, is in the Bible school on Sundays.

However, in most all churches regardless of denomination, plans are made for the holding of a Bible school of two weeks duration, sometime during the summer months, which religious training, recreation and singing periods are set up for the youth of the city.

Both the Methodist and Baptist Churches of Belle Glade have been conducting this kind of school for some years past, with large enrollment of the youth of the city. Such schools will start programs of this kind the coming Monday and will continue for a ten day period.

Everglades Federal Bank Preparing To Erect Its Own Home

Believing in the future growth of Belle Glade, and that the city is a fine point for the type of bank which The Everglades Federal Savings and Loan Company operates, the Board of Trustees, has authorized the drawing plans and specifications and letting of a contract, for a new building, to house the growing business of the bank.

The company has purchased the west portion of the L. E. Wil property, at First street and Avenue B, for the new home, which will be of 50x75 feet in dimension, and for the present one story, built out of cement block and steel, with attractive finish. The building will contain two units, one for bank use, and the other for rental purposes.

Secretary Hugh J. Bratley says that the new block will be one that will credit the company.

(Continued on Page 4)

James Ball Sells Interests

James Ball, who for 20 years, has been connected with the Keese Packing House organizations, has sold his interest in the firm to Curtis Thompson, and for the time is retiring from active business.

Kirk New President

John Kirk was elected to the presidency of the Florida State Sheriff's Association, which holds its next meeting in Tampa.

He acted as chairman of the committee on arrangements for the semi-annual convention at West Palm Beach, and nothing was overlooked in the way of hospitality and entertainment.

Mineral Salt, Glades Sun, Water, Grass, Corn And Blackstrap Make Good Beef

FLOOD CONTROL DEFINITELY!!!

The acceptance by the House and Senate of a conference report is definite Congressional action, subject only to a Presidential veto, of the most steps in the \$200,000,000 Flood Control project for South Florida.

The St. Lucie contract, ready to be an expenditure of \$1,800,000 on the Plan; appropriation of further monies should come at the next session.

A DEFINITE HISTORICAL LANDMARK IN GLADES PERMANENCY.

Lake Fishing The Best In Many Seasons

J. L. Parks, who operates the fishing camp on the east side of the big lake north of Ft. Mayaca, states that his camp has enjoyed the best patronage and best fishing since it was opened some years ago.

He reports that his register shows that noted anglers from Canada, Cuba, the New England States, Pacific coast states and many other localities in the north have fished in the lake, with most satisfactory results.

Not since the early opening of sport fishing on the lake has fishing been as good as since October high waters.

The bait casters and the fly rod artists have enjoyed a bit of sportmen's heaven, with the bass and less important game fish, while the boys with the poles, have caught unprecedented numbers of other food fish, states Parks.

The flood brought in fish from other sections and moved other from the center of the lake to the shore lines.

Educational Conferences

Glades school teachers of the county system, on Thursday, attended an educational gathering at the office of County Superintendent John L. Leonard, for the purpose of studying the layout and plans for the school year of 1948-49.

Cattle Firm Offers Scholarship Awards

Lykes Brothers, who operate large cattle ranches, have offered \$500.00 scholarships to the Board of Public Instruction of Highlands, Glades and Hendry counties, to be awarded senior boys and girls, after final examinations at the close of each school year.

Soft Ball Teams And Schedules For Junior Boys

Recreation Director W. H. Cooke, announces that four juvenile boys' soft ball teams have been formed, and will be known as the South Bay's, Markham's, Poole's and McMillen teams. The teams will play their games at 4 o'clock in the afternoon, affording early evening sport, on Tuesdays and Thursdays.

The players have been assigned to teams as follows:

South Bay—Alvin Garrett, Loren Dasher, Joe Revels, Bobby Lee, Billy Ratley, Lee Mayrow, Jimmy Williams, Norman Hunt, Ronald Townsend, Gerald White, Billy Martin, Jim McAllister, Jack White, Raymond Harris and A. J. Harrell. Markham's—R. A. R. Brown, Charles Buckles, Dale Monman, Clark Wackel, Bonnie Anupap, Jimmy Knight, Bobby Vanlan. Continued on page 5

Two Restaurants Closed

State Sanitary Inspector Tom Grafton, last week got busy making investigation of local eating places and markets along sanitary lines. He reports that so far as the work has progressed, he had found it necessary to close up three white and one colored business places, on account of unsanitary conditions and lack of food protection.

Tom says this health measure inspection is strict, and that his orders are to see that all places are decidedly sanitary.

Two Top Steers Also Produced In Glades In Beef Demonstration

With two and a half head per acre of grass, a group of 5 steers valued at 16c as feeders averaging 675.4 pounds, were green-lot fed corn, blackstrap and cottonseed meal, alone in an combination, as well as with no supplements, and after 12 days were butchered in Tampa at an average weight of 784 pounds, close to 75c shrinkage from Belle Glade to Tampa—with an average dress-out of 56.68%.

The group netted \$3357, after deducting cost of the supplementary feeds, but nothing on for land rent, labor or interest on capital investment. At \$15 per head per month rental for four months—\$500—\$200 per month for labor, plus \$12 interest on invested capital, the venture netted \$2532, for the four months use of the 20 acres.

The top steer was from the W. P. Hill ranch; it started at 81 pounds, finished at 1190 grade and good, yielded 58.68%, and sold for \$289.09. Mr. Hill believes that a Brahman bull and a Jersey cow are the parents. The second best steer was from a registered Brahman bull and a grade Brahman cow from the Wedgworth ranch. It started a 810 pounds, finished at 980 dressed 63.24%, graded good and sold for \$237.40.

Of the 50 animals, 11 were "Good", 29 "Commercial" and 10 "Utility". Six of the 10 "Utility" were from the group which had only grass and salt. From the group fed ground snap-corn, as well as the group fed blackstrap there were 2 "Good", 8 "Commercial", 2 "Good", 2 "Utility" while molasses and cottonseed meal produced 3 "Good", 1 "Commercial" and 1 "Utility".

"Commercial" and "Utility" as well as six "Utility" came from the group fed grass and salt were the feed. R. W. Kidder, animal husbandman of the Station point ranch, as supervisor, was conditioned on grass 80 days before the feeding was begun demonstrating the advisability of doing this before pushing the concentrate as supplement to the grass. "As an animal dealer," he continued, "that we must bend our efforts toward improved quality in feeds stock. Another thing, the high prices have led cattlemen to denude the ranches of cow and calves. The scarcity of cows and calves is being produced in this rush for seemly high prices puts the beef production behind and I, believe, need a healthy financial operation. I am in a prospective 1000 pounds fat steer two years from now and the net profit on the steer above that of the veal will furnish an inducement, I believe to make the beef from the calf."

(Continued on page 4)

OBSERVATION and Comment

By John M. Gladhill

Lots of things cooking around Belle Glade for the coming year and some of them if they may crisscross the pages will be surprising, and of a nature build up our activities. Do you put the Glades down as a desolate spot, for it rapidly is gaining importance in production plan than has ever had previous.

While our firemen could do much toward saving the burning on West Avenue recently, they did excel work in protecting surrounding property from going the same way.

Constitution of the Year of Foreign War Post in current such as expensiveness, comfortable home location their activities. It is really home place, and has facilities permit of growth the post, and Fred and his

Methodist Bible School Gives Attendance Awards
The Community Methodist Bible School, of which "Spotty" Burr is the superintendent, has been honoring an attending student for the contest for the past six months, and on last Sunday morning, awards were made to the 23 persons who had scored perfect attendance and these were given privilege of selecting their own trophy of a Bible, a New Testament, a Cross and Chain, a Bull, and selected bible stories.

Those who were awarded recognition and trophies were: Nunsing, Verna Hargrave, Penny Carlton, Peggy Carlton, Jimmy Hoffman, Michael Berryhill, and the teacher, Mrs. Carlton.

Kindergarten 1: Jacky Hoffman, Bobby Schoenfeld, Barbara Ballard, Kindergarten 2: Marie McDonald, Primary 1: Carolyn Schoenfeld, Billy Schoenfeld, Primary 2: Jay Freeman, Primary 3: Mary Felder, Charles Schoenfeld, Sue VanLandingham, Betty Jane McDonald, Junior 1: Karen Allison, Billy Elder, Junior boys: Harry McDonald, Bobby VanLandingham, Junior girls: Winifred Burry, Gail Allison.

Intermediate girls: Betty Jean Harris, Dorothy Kidder, Wanda Mackey, Kathleen Vandewater, Seniors: Marguerite Campbell.

Local Scouts Go To Lake Osborne Camp
The members of Boy Scout Troop No. 22, leave on next Sunday, for Lake Osborne, near Panama, where they will enjoy their annual outing and camp training period. On that date there will be a water front demonstration open to the public.

The troop personnel attending will be: Jerry Brent, Joe Leavitt, Larry Simmons, Peter Seale, Ronald Jones, Junior Collins, Dan Crosby and Jerry Bupp.

LOCAL CHURCHES
(Continued from Page 1)
under facilities that have been selected to carry on the educational work.

This year the Everglades Presbyterian Church will join with the Community Methodists in the sponsoring of their school while the Baptists will conduct theirs under customary methods.

At the conclusion of the schools, each will have appropriate graduation program and the award of merit souvenirs, and likely an entertainment party.

At the I. E. Enlow, of the Baptist Church, announces the following faculty members for the year's school.

Beginner's department, Mrs. Harry Collier, B. Fleming Lucy Gregory, Mrs. Jane Rashley.

Intermediate, J. K. Baker, Mrs. Jessie Beckman, Mrs. W. T. Forzes, Mrs. H. E. Jones.

Juniors, Mrs. Grady Edwards, Mrs. E. D. Humphries, Miss Charlotte Enlow, Mrs. H. O. Eardwood, Mrs. G. A. Smith.

General committee, J. H. Chamblee, chairman; I. E. Enlow, advisor; A. J. Richmond, athletic; W. L. Cunningham, music; Patsy Chamblee, secretary; Mrs. J. W. Kushley and Caroline Cato.

Rev. L. F. Vandewater states that the program at the Community Church will be a bit different this year, in that department will have a special co-operative study in Missionary Education as outlined by the Friendship Press for the year.

The title "The Bible Goes Round the World". The primary department will study "We Go To The World" and the kindergarten, "The World About Us".

Sessions will be from 8 to 11:30 o'clock, and the facilities of the school is open to all youth of the city.

EVERGLADES FEDERAL
Continued From Page One
part of the city and front on Avenue B, of modernistic architecture. The space allotted to bank use will be sufficient to form large and excellent banking office facilities.

The Everglades Federal Savings and Loan Company has been in business for years with C. E. Riedel, Hugh J. Bratley, Herbert Beck, A. E. Kirman, and Walter Hooker, as its members.

From a modest start the company has now under its last financial statement grown to an institution of one million and a half dollars in capital.

The little building in which the bank is now ensconced formerly stood on the canal bank where the Sanders block now exists, and when that structure was erected, was moved across the street to its present location. The bank hopes to be in its new home in the late fall.

Mr. L. E. With two years ago purchased the Avenue B property with intent to improve same with a bus terminal, but has since decided not to progress with that deal, and sold a portion of the site, he retaining the

much larger over-all dimensions. Front seat widths have been increased six inches and the rear seat nearly eight inches. The body has been moved five inches forward with the seats cradled between the axles for a much smoother ride.

A new type of suspension system—"Hydra-Coil" Suspension—replaces the traditional transverse springs and the front axle. This system is centered around the airplane type shock absorbers mounted within low frequency coil springs. In the rear, extra long longitudinal springs are complemented by airplane type shock absorbers.

There's more leg room in the new cars because the size of the drivetrain tunnel has been decreased by adoption of the Hotchkiss drive and the hypoid rear axle. These engineering changes also minimized the transmission of road noises into the car.

Engine vibration has been reduced by literally floating the power plant on rubber mounts. A new heating system available in the new Fords brings year around comfort to driver and passengers in the new Ford. Fresh air is scooped into the car through large intakes just behind the grille.

The system can be used as a fresh air ventilator, a fresh air heater or as a recirculating heater by selecting the position of an easily operated control knob. An automatic temperature control also is available. Fresh air, plus pressure effect obtained by the car's forward motion reduces logging and drafts.

OTHER FEATURES—Interior styling is colorful and practical. Traditional, neutral-toned automobile fabrics have been discarded for new tweeds, broadcloths and mohairs which retain the ability to absorb hard family usage.

Hardware is massive and attractive. Door handles and other hardware are much easier to operate. The doors have new type locks which eliminate all possibility of persons being locked out of the car with the keys inside.

The flight panel dash provides centralized grouping of instruments for quick easy reference in line with the driver's view of the road. Fuel level, oil pressure, water temperature and charge indicators are placed outside the rim of the speedometer. The glove compartment on the right hand side has been enlarged.

Chrome trim, both inside and out, has been reduced considerably.

Mr. Bolton said: "There are two lines of cars, the Ford and the Ford Custom. Body styles in both lines include the four door sedan, two door sedan and club coupe. Convertible and station wagon models are obtained only in the Custom line, and the three passenger coupe only in the Ford line."

frontage on the alley west of his garage property.

CELERY PRODUCE
Continued from page 1
an unhealthy condition in that respect, buyers being able to buy at practically their own price, and low prices.

Prices FOB locally were less than in former seasons, and many cars sent of consignment for market sale, proved heavy if not total loss of income. Past type celery was a drag on the market.

In its annual report issued the past week by the State Market Board it made a summary of the acreage and shipment of celery from the Florida growing areas, as follows:

Seminole, 4199 acreage and 3770 cars; Sarasota, 1350 acres and 1456 cars; Palm Beach, 4209 acres and 2116 cars; other areas, 2550 acres, 3123 cars, a total of 11,909 acres and 8,435 cars. The shipment of celery by trucks equivalent of car loads, 1241. The record shows that the largest movement by truck for the past ten years was in 1940, when 1681 cars were moved.

The record of the car movement from the Glades in comparison forwardings show quite a falling down, largely through the market holiday, and the non-harvesting of many hundred acres of celery, due to numerous reasons. At some periods of the season, the market prices were not high enough to pay the growers to cut their product. Market demand all through the season was on the dull side, and prices were of a like type.

Odd Fellow Jubilee Dates
Felix William Odd Fellows of South Florida, will observe their second annual jubilee encampment, at Ft. Lauderdale, on July 3, 4 and 5, the first two days in that city; and the Monday picnic session at Grinnell Park. The event will be open to all branches of the order, from the east and west coasts.

Gene To Hot Springs
City Commissioner Harold Robin, is in Hot Springs, Arkansas, for a sojourn at that health resort, and later will make a business trip through the north and eastern states.

Eliks Observe Lodge Of Sorrow For The Late G. A. Taylor
In the ritual of the Eliks' lodge there is provision made for the observance of a "Lodge of Sorrow" in remembrance of members who have passed this life. For the second time in the history of the local lodge, such ceremonies were conducted, this time for the late George A. Taylor Sr., a charter member. The eulogy for the deceased, a beautiful tribute, was spoken by Walter Hoxley.

Frank Dooley, as chairman of a special committee to raise funds for the Harry Anna Cripps Children's Hospital at Umatilla, made its final report on its project, and as a result the lodge will send its check for \$425 to the home. Billy Crider will be listening to music over a fine new radio.

HENRY'S GRANDSON
Continued from page 1
holds the Belle Glade Ford sales franchise, is smiling all over his face, with the knowledge which he has gained from the new Ford Cars, which he is exhibiting at his place of business on East Avenue E, this Friday, and to which all car owners and the public are invited, in his attractive show room.

The Ford Company, its thousands of dealers, and its sales on this brand new production, and from reports made since the displays began, so are the public, by the best of the orders that have placed on the purchased lists. The car must be seen to know about its quality and its extreme beauty of styling.

From the literature of the Ford Motor Company, is taken this information and description of the car.

"New standards of beauty, comfort, economy and performance in the 1948 Ford cars, the car advances them far ahead of others in the low priced field," Mr. Bolton said. "Styling of the new Ford definitely 'takes it' as 'The Car of the Year'."

To develop and produce the 1949 production cars, later, the Ford Motor Company has expended more than \$37,490,000 in tools, dies, jigs and fixtures.

STYLING—The modern design has been molded along functional lines, resulting in a long, low, sweeping silhouette. The grille is distinctive, the hood massive but shorter and the body so wide the rear fenders have been eliminated. There are clean undulating lines from front to rear.

COMFORT—Comfort has been one of the primary objectives in the new Ford. There is more room in the "Leisure Glade" interiors than in many cars with

On Display Today!

You are cordially invited to come in and see the

NEW 1949 FORD

The Car Of The Year

There's a *New Ford* in your future

ECONOMY—Asked about the economy of the new Ford, Belle Glade Motors advised: "Economy of operation has been increased up to 10 percent for the new six-cylinder engine and the extensively redesigned V-8."

Both the V-8 and Six engines are offered as power plants in all Ford models. Other engineering features result in better performance and longer engine life.

Increasing miles per gallon has been effected mainly through a new intake manifold and the introduction of the "Equal-Flow" Cooling System.

The new intake manifold achieves better fuel distribution. It is attached to the engine so that it is horizontal to the ground, reducing the tendency of raw gasoline to flow toward the rear cylinders and smothering out engine operation.

The new cooling system contributes to good performance under extreme conditions by improving general operating efficiency. Water flows in volume the length of the radiator, reducing the tendency of the six and eight cylinder engines have been decreased by as much as 12 degrees. There are larger water pumps in the V-8.

Improvements in the ignition system also have contributed to increased economy and efficiency.

As much as 35 percent improvement in gasoline economy may be achieved by taking advantage of the overdrive which is available as factory-installed optional equipment. This results in a substantial savings during the life of the car.

There are eight durable new exterior colors, Bayview Blue Metallic, Birch Gray, Sea Mist Green, Arabian Green, Colony Blue, Gun Metal Gray Metallic, Midland Maroon Metallic and Black.

Two additional colors—Faz Red and Miami Cream—are available in the convertible only.

SAFETY—New standards of safety have been set in the rugged construction of the chassis and body. The box-type frame is of all-welded construction. Although it is lighter, combined with the body it is 59 percent more rigid.

Lowering the over-all height by four inches and placing the seats between the axles result in a lower center of gravity, an aid in safe driving.

The windshield has been increased in height and width and the rear window now provides "Picture Window" Visibility for driver and passenger. The rear window is larger than the ordinary windshield. There is as much as 29 square feet of windows in the new cars.

All doors hinge at the front. Inside handles push up instead of down to open the door. Both features combine to preclude accidental opening of the doors while the car is moving.

PERFORMANCE—Increased performance values are one of the highlights of the new cars.

Steering has been greatly improved. The new Ford may be guided by a minimum of effort even under severe driving conditions. Road shock has been minimized. This is the result of a newly designed linkage in which the pivot point of the tie rods is on the same center line as the wheels.

Engineering changes, some of them already mentioned, in the engine contribute to smoothness of operation. These include the new cooling system and intake manifold, also redesigned combustion chambers and improved crankcase ventilation system as well as other features.

The 114-inch wheelbase, which is most successful in parking and in moving through heavy traffic, has been retained.

The new Six develops 85-horsepower, providing better acceleration in passing and heavy traffic.

OBSERVATIONS

Continued from page 1

Ogle, are the proudest people of the veteran bunch. The kitchen and facility will provide some mighty good feeds.

Seeing that class of graduates come in with Cap and Gown at the Commencement exercises, took my mind back to Leetonia, Ohio, where in June 1883, I received my diploma. That class was composed of eleven girls and three boys, and the scholastic race was keen all that senior year for honors, with

myself drawing the Salutatorian's honor, best out by less than one percent, by my then sweetheart. It was tough but endurable from such a sweet girl as she.

I recall that my oration subject was "The Young Man in History, and all that I remember of it now, was this one sentence concerning Napoleon Bonaparte, "the little island of St. Helena, was the only witness to his fallen glories."

No more will we see the gen-

eral face of Mayor George A. Taylor, about our streets, or be greeted with his happy salutation, and in friendship the writer has lost a good fraternal brother. During his mayoralty, I often had friendly conversations with him, and found that he was imbued with the idea to do everything possible to advance his city. When the time comes that Belle Glade has the Crippled Children's Hospital in operation, and we have a city sanitary sewer system, they will be monuments to the memory of our past chief magistrate, for through his personal and official efforts were these projects promoted. When he was engaged in the merchandise business, many a worthy family, were the recipients of his unpublicized generosity in way of food supplies. He was a man well worthy knowing and being esteemed friend.

When that good ministerial father of mine performed the ceremony which made Clara Bartholomew and John M. Gled, man and wife, on June 12, 1900, he must have tied a good nuptial knot, for it has held firm and binding now for 43 years. The years have flown fast, and pleasantly, for it has been a wonderful life full of experiences and some up and down. It is a wonderful thing to have a congenial companion, as you pass down the path of life, to work with and encourage you when it is needed. The golden wedding anniversary does not seem to be so far away.

Flowers in their silent way, have a way of expressing the sympathy of friends, and comfort to the bereaved.

The members of the city police department, who worked with the school Safety Patrol, state they enjoyed their service with the lady, who were watchful and careful in their work, and were of great assistance to the police. The officers hope that a similar organization, with as good boys in the line up, will be working again next year.

Hub caps from automobiles are disappearing from the vehicles, in all sections of the town, through some unknown source. Another group is playing with matches and two firms have originated from this source. Must be stealing caps for resale for profit.

Small things may grow into large ones, for good or evil. Therefore it behooves all to guard against the little thing growing into big things that may become an evil menace.

"Life is a story of volume three. The past, the present and the yet to be. The past is finished and laid away. The present we are reading day by day. The future and last of the volumes three. Is hidden away from sight, God holdeth the key."

New Masonic Lodge To Be Instituted At Clewiston On July 1

Announcement has been made that the new Sugarland Lodge (UDF) A. and M., will be instituted at Clewiston, on Thursday evening, July 1st, with District Deputy Grand Master Frank Thompson, as the

Instituting officer.

Grand Master Hal Adams, of Mayo, has named C. M. Pirkle as the first acting Worshipful Master of the new lodge. The lodge has set the first and third Thursday nights of each month as its meeting nights, at the new temple erected for its place of meeting.

Lodges from around the lake (area) are expected to attend and have a part in the program of the occasion. A number of the members of the new lodge will come from the lodge at Moore Haven, and other localities in Hendry county. With the institution at Clewiston all the lake towns from Okeechobee to Moore Haven, will have a close chain of Masonic lodges.

Fellowship Meeting Inaugurated By Local Presbyterians

Capacity congregations are continuing to attend the Sunday evening services of the Everglades Presbyterian church where the Rev. Herman Dan, the pastor, is preaching some mighty fine spiritual sermons. The church session has decided to make a house to house canvass, seeking out members, which work will be in charge of the men missionary work which will likely get started next week.

During the summer, a combined fellowship and prayer service will be held. Pot luck dinners will be served at 7 o'clock, followed by a table discussion of religious matters, by the pastor, invited guests as speakers, and the members of the congregation.

The Presbyterians of south Florida will hold a Youth Fellowship camp at Mt. Dora, June 24-30, and the Everglades church will be represented by Lucretia Campbell, Mary Jo Campbell, Neda Miller, and Robert Compton. John Robinson and Mrs. Robert Rodman, will go along as chaperone.

Father Is Worthy Of Recognition On Father's Day

Next Sunday throughout the United States, will be celebrated as Father's Day, in some countries and in many homes, from which the father has gone never to return, and in others to still living father. There is nothing too good for the man of the house, who labors hard each day, week and month, to keep a habitation for his brood, food for the table, clothing for the body and the comforts for the entire flock.

No one knows how hard "dad" works, how weary he grows each day as he plys the tools of his occupation, and how tired he is as he returns at night to gain his necessary rest to meet the duties of the following days.

Father may not be as demonstrative as the mother, but his interest in his family circle, is deep and lasting, no sacrifice is too great to make. Then why this stated national celebration in his honor should not be given full accolade of his necessity, importance and paternal love. Just show a little attendance to the "old man" with a kind word of appreciation, a little favor, or some useful gift. Then see how he appreciates this wisely and fully finally as he gives each and every one a fatherly smile.

BELLE GLADE HAS

Continued From Page One

This occasion there was nothing left undone to make it a perfect occasion. Beautiful stage effects had been evolved by the artistic workers, and the Juniors, did the ushering of the attendants to their seats. The Band joined in with its musical program, and the large audience joined in the enjoyment of the program. Only the Seniors were on uneasy seats, with anticipation of receiving the awards for their four years of ardent study. To gain scholastic awards that brings the Valedictory and Salutatorian honors, means long and steady application to the texts books, for those to whom the laurel wreaths fall, and this year, these honor students were Anne Kirchman and John Bregger. In short addresses Anne and John gave their thanks and appreciation, for themselves and classmates, for what had been done for them in an educational way; words of appreciation to the faculty members, and their experiences with their classmates.

For many years, Superintendent John L. Leonard, has been making annual pilgrimages to Belle Glade, to present the members of the graduating class their diplomas, and be expressed a tinge of regret, that he would be able to serve in this particular capacity in the future.

In a few preliminary words, he distributed the "sleeping" to the seniors as their names were called and approached the platform to receive them.

There is a custom in Belle

Glade, that there are other recognition awards granted to the seniors for special outstanding records in work, and the feature was in charge of Principal Frank O. Holson, who announced the winners and presented them with the trophy cups, which will have the winners names engraved upon them for the school year of 1942-43.

The invocation was pronounced by Rev. Herman Dan of the Everglades Presbyterian Church and the benediction by Rev. A. J. Lively, of the Catholic Episcopal parish.

The real treat of the evening came with the annual address as delivered by State's Attorney Phil O'Connell, who is well known for his ability as an orator and speaker, and as usual he pleased, his topic being "Future Success."

For the completion of this story, and record, the names of the 1943 graduation class a number of whom expect to go away to college in the fall, are as follows: Misses Elizabeth Stevens, Mary E. Kidder, Grace Eggleston, Helen Friedlander, Nancy Crossen, Darlene Mobley, Mary Williams, Bools Young, Emogene Greenwood, Odell Henderson, Davis Riddell, John Stacey, and Anne Kirchman. Messrs. Claude Johns, Jimmy Ball, John Bregger, Hubert Swain, Albert Stearns, Jimmy Amag, J. K. Davis, Ralph Cassaux, Carroll McDonald, J. T. Harrell, Billy Strickland, Robert Stacey, James J. McLaughlin, William Franklin and Franklin Stables.

August 12th will be playoff night to decide the champs. All games will be played at 4 p. m.

Scarborough's Resignation Is Now Effective

City Commissioner George Scarborough, is no longer connected with the city commission as the date of his acceptance as fixed by the Commission for June 16th is past.

The Commission will now run along with four members until after the September municipal election. The Commission will then be two commissioners to be elected for two years, the seats now occupied by Commissioners Weeks and Lively; and one for one year, the term of the Scarborough term.

Sea Scout Cruise

Nine Sea Scouts under the leadership of Shelly Connell and Dr. Bregger from Belle Glade, Florida, enjoyed a week end cruise which left from the Port of Palm Beach to Miami Beach, Fla. The Cruise was made with 57 Sea Scouts and Leaders in the Gulf Stream Council, Boy Scouts of America aboard a 175-foot PC boat stationed at Palm Beach. The Cruise was under the leadership of Commodore R. R. Thompson who arranged a program of Sea Scoutship participated in by all Sea Scouts. The program included a turn at the wheel as

helmman by every Scout, rope work, fire drills, abandoned ship drill and other seamanship. The boys ate their meals aboard the PC and slept aboard the 300-foot DE, Tills in Miami.

The large group was divided into 4 sections under the leadership of Wendell Guyer, West Palm Beach, Perry Duke of Pahokee, Garland Hayes, Jr., Ft. Pierce, Floyd Thorpe, West Palm Beach, Dr. Tom Bregger and Shelly Connell, Belle Glade and Alfred Suhr and Rhoy Johnson, Lake Worth.

LEGAL NOTICES

NOTICE: The annual meeting of The Island Flood Control District will be held at the office of the South Florida University District in Belle Glade, Florida on June 25th, 1943 at eight o'clock, P. M.
